QUESTIONNAIRE FINGER JOINTING LINE

For CRP Finger jointing systems

Company: _____	Date: _____
Address: _____	Telephone: _____
	Fax: _____
Contact: _____	E-mail: _____
Website: _____	Activity Field: _____

FIELD OF APPLICATION:

- Moldings Windows and doors Studs (NLGA SPS3) Structural lumber (NLGA SPS1)
 Flooring, furniture Laminated timber Cross laminated timber I-Lglw
 Others, describe _____

INFEEED MATERIAL, FOR DEFECTS SAWS LINE

FINGER JOINT, FINAL PRODUCT

Wood species: _____ "

Dimensions	Thickness	Width	Length
-----	-----	-----	-----
Minimum	_____	_____	_____
Maximum	_____	_____	_____
Average	_____	_____	_____

Surface of lumber:
 S2S (2 sided planed) Rough
 S4S (4 sided planed) Hit & Mist

Moisture content: _____ % MC

How many different grades: _____

Any other particularity?: _____

Minimum outfeed length: _____
 Maximum outfeed length: _____

Production desired (8 hr/shift):
 lin/ft bdft m³ lin/m

One shift two shift three shift

Finger length desired:
 5mm 10mm 15mm
 20/22mm 1/4" 3/8"
 5/8" 7/8" 1,113"
 Others, : _____

ADHESIVE :
 One component Two component
 Curing time: _____
 Brand used: _____

GENERAL INFORMATION

Electrical Supply: Voltage (V): _____ Frequency (Hz): _____

REALISATION OF THE PROJECT

- Short term Medium Term Long term

TGS WGVGF 'CE VIK/KIGU

- Quotation Visit reference Discussion

EXISTING GS WRO GPV"

- Finger jointer Scanner Cross Cut Saw
 Planer Rip saw Chopper Other: _____

If possible Send us a drawing with available space measurement.
